About Us

Greenland Particle Boards Pvt. Ltd. is one of the best and leading manufacturers of wood based pre-lam particle boards in India. Our company which was incorporated in 2010 started its commercial production in the year 2015. Since then, persistent strive for improvement and growth has kept its name alive and kicking in the ever growing and competitive wood industry.

The mother board production facility has an installed capacity of 150 CBM per day and the lamination facility has a capacity of producing 7000+ boards per day . Our exclusive premium plus grade (high density, E1 grade) boards have well-set a benchmark in regards to technical parameters and product quality which even the biggest names in the market finds hard to match. Our wide range of more than 270 pre-lam shades have made us a favorite for many furniture manufacturers.

More than 200 employees enthusiastically work in unison at our factory to deliver the best in terms of products and services. Only a great team can achieve great heights!
